Release
12 February 2015

Reminder

Daylight Sheet / Engine Sealing Paperwork

Once registration has been processed a copy of your Daylight Sheet and current Engine Sealing form are to be stapled in the back of your log book.

The Engine Sealing form needs to correspond to the Engine Seals attached to your engine.

Registration Process Reminder

The logbook held from the previous season needs to be presented at daylighting for the current season, prior to your vehicle being registered. Any previous work orders will need to be rectified.

Cars must be registered with your State within 90 days of Daylight Inspection.

It is imperative that you have filled out the front compliance sections (pages 3 – 7) in your log book prior to attending your first race meeting. The vehicle registration is not complete until the required information has been entered.

Regards

Beckie Jones
National Secretary
