Street Stock Technical Specification

Please be advised after the recent Technical and Board Meeting the following recommendations and clarifications have been accepted.

Motion 1

Battery and Electrical System

Add wording "this switch must also isolate the battery, and any other electrical item"

Add wording to electrical section at end of kill switch wording.

Street Stock 20F

Effective date 1/1/15

Moved WA 2nd NSW CARRIED

Motion 2

Seats

Recommend steel seats be minimum 2mm thick.

Moved VIC 2nd NT CARRIED

Motion 3

Cylinder Heads

Street Stock P26 sect 17J

Permit the use of HTP brand aftermarket 4 lt Falcon Heads

Last sentence of 17J to read

All 4lt Falcon engines may use any OEM Ford or HTP head up to and including AU, but valve size to be correct for model of engine.

Reason

EF/EL heads are no longer available from Ford and good s/h ones hard to get. These heads have been approved for use after receiving a submission which included flow testing to ensure they are the same as OEM Ford heads.

Moved NT 2nd QLD CARRIED

Motion 5

Tyres

Street Stock Page 32 section 25h

DELETE "minimum 60 Profile"

TO READ:

h) TYRES: Radials only: 215mm side wall. (e.g. 215/60 R15H or 215/75/R15H).

The use of tyres branded "Competition Use ONLY", are not permitted.

REASON: To give a wider range of gearing without changing diffs.

Moved WA 2nd QLD CARRIED

Motion 11

Seats

That fibreglass seats be phased out by 30/6/15

Moved WA 2nd QLD CARRIED NSW and VIC AGAINST

Motion 12

Clarification

ALL MONO CARS – CLASS TECHNICAL MANUAL

Remove wording "prior to construction cars of an unusual or conventional design"

ADD WORDING "prior to constructing cars of an unusual or unconventional design, or one not listed in tables at the rear of the class specification manual.

Moved WA 2nd VIC CARRIED

Regards

Beckie Jones
